

TECHNICAL DATA SHEET

FORMULA B Brake Parts Cleaner

DESCRIPTION: Quickly and effectively removes dirt, grease, oil and moisture from all brake parts including brake linings, disc brake pads, drums, master and wheel cylinders, brake shoes, springs, rotors, brake pistons, calipers and cables. Works instantly with or without disassembly of brake unit. This advanced formula stays wet longer than conventional brake cleaners, to meet OSHA requirements. Formula B is also useful in stopping disc brake squeal. Non-flammable. Excellent for degreasing any parts; such as transmissions and tools. Formula B is also an ideal cleaner for electrical systems, such as generators, motors, starters, switches, etc. Do Not spray on rubber parts. Not recommended for computer parts.

USES: Automobiles - Motors - starters - Recreational Vehicles - Generators - Switches

DIRECTIONS:

1. Make certain part to be cleaned is cool.
2. Direct spray to part or parts to be cleaned.
3. Cleaned area will air dry quickly (7 to 10 minutes). Drying process can be shortened by dabbing with a soft cloth.

NOTE: Do not spray Formula B on any Rubber parts. May discolor or stain plastic parts.

STORAGE: Store below 120°F.

PACKAGING:

8oz job size aerosol	12/case
20oz aerosol	12/case
24oz aerosol	12/case

PRODUCT #: C0816
C2001
C2424
