

TECHNICAL DATA SHEET

GANG BUSTER

Carburetor , Choke Cleaner and Lubricant

DESCRIPTION: A high power formulation of solvents and lubricants, eliminates the steps of cleaning then lubricating. Also eliminates the need of two products. Designed to remove gums and varnishes while lubricating parts in one efficient step. Gang Buster contains "Resi-Lube," a chemical which lubricates all moving parts and helps to eliminate moisture between applications. It is completely harmless to all oxygen sensor devices. Extension tubes included excellent for removing varnish from transmission.

USES: *Carburetor *Linkage *To Free-up Heat Risers
 *Choke *PCV System *Small Parts Cleaner

DIRECTIONS: 1. Engine should be turned off and air cleaner removed.
 2. Start engine and attach extension tube to valve button so that more parts of the carburetor can be reached.
 3. Spray liberally.
 4. Adjust air-fuel mixture.
 5. Finish by cleaning outside of carburetor.

STORAGE: Store below 120°F.
